Professional profile

I am a person with commitment, creativity and initiative. From my experiences, I consider teamwork very important, attending to methods and protocols for a better fluidity in the interaction with it, including interdisciplinary teams.

I have adaptability to change, as well as to solve problems or emergency situations to achieve the objectives in a timely manner.

I am always open to criticism, as they contribute to personal growth and add professional value. I understand error as a way of learning.

Experiences

→ Acción Point = From January 2021 to date
  → Mainly using the GeneXus suite of tools
  + Technologies such as Docker, Kubernetes, Jenkins and GIT among others
  + Agile Scrum methodologies with the Jira and OKR tool.
